“ Not a day goes by something reminds us Papa Roy, is at his new address in heaven. His guidance, support, love and understanding helped us so many times. We miss his humor, his laugh, and his presence. The consolation is someday we will meet him again in our heavenly home. May God bless family and friends until meet him again.

“ I was sorry to learn of Roy’s passing. I worked with Roy for several years and always enjoyed his genuine outlook towards each day. He was a great railroader, and even a better family man. I remember the family photos that were framed above his office desk, and how Roy was always ready to talk about family. My thoughts and prayers are with Roy’s family during this difficult time. “ I was so saddened to hear of Roy's passing. While Roy was always a true railroad professional, it was even more apparent that he loved his family so very much. My deepest sympathy to his wife and family and to all his railroad friends.

“ I am very saddened and feel deep sorrow for Roy's family with their great loss. The pain of grief for a close loved one is the worst pain that we humans too often are required to endure. I worked very closely with Roy from 1984 till the end of 1989. Too a great extent I was responsible for his Flomaton appointment and from my view appeared to be a great fit for him and family. There were tremendous accomplishments on the Railroad during his time there that would not have been possible without his dedication to excellence in fulfillment of his Railway Duty exceeded only by his dedication to Family. I have many great memories of his exhibition of great leadership and will forever have great respect for him as a man and a great Railroader. I was very moved by a post made by his Daughter shortly after his passing. I pray that his devoted wife may find comfort in the part of Roy that is still with her that will live on in their children and grandchildren. When she hears them speak may she hear a part of Roy in their voice, when she sees them smile may she see Roy's great smile, when she looks at them walking and moving may she see that movement of Roy as I am certain that those parts of Roy are there for her to cling to as she deals with this tremendous loss. May the Children support their Mother and continue to help her move through this painful time and learn to deal with the loss of her life partner. May the children find comfort in the love and dedication to each other their parents gave to them through their upbringing and have relief in knowing their Father was very proud of them always. Grief never goes away but we learn to live with it through these things.

With great sadness

“ Roy was my supervisor, a mentor and a friend. I would not have been who I was as a Railroader without his guidance. He wanted us all to be better, everyday. He expected no less from us, without fail. He will be missed.
